# TME Update

- The APCD monthly submissions will not require the reporting of the Non-Claims Payment information (PV065 – PV070) or the Health Status Adjustment Tool information (ME124 – ME130) (see attached).
- Two APCD data fields will be re-purposed to allow the collection of:
  - Attributed PCP Provider ID (Included when Payment Type is Global and there is no assigned PCP Provider.)
  - TME OrgID for the Physician Group of the Member’s PCP on eligibility
- A third field will be repurposed – at later date to allow collection of Registered Provider Organization Number that will be assigned by the Health Policy Commission.

# TME Update

- Implement quarterly TME reporting and collect this data through a new APCD file. The information collected will be based on date of service as is the current TME practice.
- Data will be submitted quarterly with year to date cumulative information with a four-month lag. In other words, the second quarter data that ends June 30<sup>th</sup> will include year to date thru June 30<sup>th</sup> and will submit to the Center by November 1<sup>st</sup>. Payers will also need to submit the final TME data for a given calendar year fourteen months after the end of the TME reporting year. For example, the final CY 2013 data will be due March 1, 2015.
